

Defend Oahu Coalition

Petition to the City Council to Review, Amend or Modify the 1986 Special Management Area Permit for the Turtle Bay Expansion Project to Protect our Environment and our Community.

As a resident of Oahu, I am concerned about the proposed expansion of the Turtle Bay Resort. This project was designed and approved for conditions that existed twenty years ago. Times, conditions and community needs have changed. I am concerned that another development on the North Shore would be detrimental to the entire island - taking away valuable recreational and cultural space as well as exacerbating problems such as traffic, waste management and affordable housing.

We, therefore, petition the City Council to review, amend, or modify the Special Management Area Permit for the Turtle Bay Expansion Project granted by Resolution 86-308 (1986) as necessary to protect our environment and our community.
